VOLUME 13, 1976

INDEX

January 1–100
April 101–172
July 173–228
October 229–286

INDEX TO VOLUME 13, 1976

(Titles and Authors)

A

A Comparison of Horse, Cow, and Sheep Blood in NYC Medium: Effect on Recovery of *N. gonorrhoeae* and Urogenital Mycoplasmas. Faur, Y. C., Weisburd, M. H., and Wilson, M. E. 194

A Comparison of Three Fermentation Methods for the Confirmation of *Neisseria gonorrhoeae*. Brown, W. J. 54

A Mycobacteriology Proficiency Testing Program Using Simulated Sputum Specimens. Gruft, H., Loder, A., and Osterhout, M. 184

An Air Sampling Technique for Hepatitis B Surface Antigen. Petersen, N. J., Bond, W. W., Marshall, J. H., Favero, M. S. and Raij, L. 233

Andrulonis, J. A. and Debbie, J. G. Effect of Acetone Fixation on Rabies Immunofluorescence in Glycerine-Preserved Tissues 207

A New Medium for the Presumptive Identification of Gram-positive Uropathogens. Granato, P. A. and Ellner, P. D. 258

A Stable Liquid Human Reference Serum. Frajola, W. J. and Maurukas, J. 25

Automatic Gram-Staining with the Microstainer II. Burdash, N. M., West, M. E. and Bannister, E. R. 20

B

Bannister, E. R. et al. Automatic Gram-Staining with the Microstainer II 20

Berwick, D. et al. Effects of Pooled Samples 121

Biohazard Potential: Recovery of Infectious Virus from the Liquid Nitrogen of a Virus Repository. Schafer, T. W., Everett, J., Silver, G. H. and Came, P. E. 23

Bond, W. W. et al. An Air Sampling Technique for Hepatitis B Surface Antigen . . . 233

Bonin, P. and Lawton, H. L. Seattle-King County Revisited 271

Book Reviews 167, 288, 275

Brenner, D. J. *Shigella flexneri* 6 Biotypes: A Review 218

Brown, W. J. A Comparison of Three Fermentation Methods for the Confirmation of *Neisseria gonorrhoeae* 54

Brownfield, R. L. et al. The Number of Personnel Needed to Perform Examinations 118

Burdash, N. M., West, M. E., and Bannister, E. R. Automatic Gram-Staining with the Microstainer II 20

Burke, P. A. and Sheffner, A. L. The Antimicrobial Activity of Embalming Chemicals and Topical Disinfectants on the Microbial Flora of Human Remains 267

C

Came, P. E. et al. Biohazard Potential: Recovery of Infectious Virus from the Liquid Nitrogen of a Virus Repository 23

Carey, R. N. et al. Field Evaluation of the Becton-Dickinson SST 209

Chapel, T. A., Keane, M. B. and Gatewood, C. Combining Cervical and Rectal Cultures for Gonorrhea on a Single Modified Thayer-Martin Plate 190

Chapel, T. A., Smeltzer, M. and Dassel, R. The Effect of Delaying Incubation in a CO_2-Enriched Environment on Gonococci 45

Colonization of Soil by *Histoplasma capsulatum:* II. Effect of Bat Guano Added to an Area of Reduced Colonization. Hasenclever, H. F. and Piggott, W. R. 203

Combining Cervical and Rectal Cultures for Gonorrhea on a Single Modified Thayer-Martin Plate. Chapel, T.A., Keane, M. B. and Gatewood, C. 190
Comparative Sensitivity of the BGM Cell Line for Isolation of Enteric Viruses. Schmidt, N. J., Ho, H. H. and Lennette, E. H. 115

D

Dassel, R. et al. The Effect of Delaying Incubation in a CO_2-Enriched Environment on Gonococci 45
Debbie, J. G. et al. Effect of Acetone Fixation on Rabies Immunofluorescence in Glycerine-Perserved Tissues 207
Decker, D. L. et al. Demonstration of Agglutinating Antibodies Against *Vibrio parahaemolyticus* in the Yellow Tail Flounder (Limanda ferruginea) 197
Demonstration of Agglutinating Antibodies Against *Vibrio parahaemolyticus* in the Yellow Tail Flounder (Limanda ferruginea). Ortiz, J. S. and Decker, D. L. 197
DeRoose, R., Vesley, D., Duchene, A. and Hart, L. J. High-Purity Water Supplies for Biomedical Research Laboratories 11
Duchene, A. et al. High-Purity Water Supplies for Biomedical Research Laboratories 11

E

Effect of Acetone Fixation on Rabies Immunofluorescence in Glycerine-Preserved Tissues. Andrulonis, J. A. and Debbie, J. G. 207
Effects of Pooled Samples. Keeler, E. and Berwick, D. 121
Ehrhard, H. et al. Evaluation of Tests for Infectious Mononucleosis through Proficiency Testing 34
Ellner, P. D. et al. A New Medium for the Presumptive Identification of Gram-positive Uro-pathogens 258
Evaluation of Tests for Infectious Mononucleosis through Proficiency Testing. Taylor, R. N., Ehrhard, H. and Marcus, S. 34
Eveland, W. C. et al. Interaction of *Listeria monocytogenes* and Influenza in an Animal Model 250
Everett, J. et al. Biohazard Potential: Recovery of Infectious Virus from the Liquid Nitrogen of a Virus Repository 23

F

Faur, Y. C., Weisburd, M. H. and Wilson, M. E. A Comparison of Horse, Cow, and Sheep Blood in NYC Medium: Effect on Recovery of *N. gonorrhoeae* and Urogenital Mycoplasmas 194
Favero, M. S. et al. An Air Sampling Technique for Hepatitis B Surface Antigen . . 233
Field Evaluation of the Becton-Dickinson SST. Laessig, R. H., Carey, R. N., Westgard, J. O., Hassemer, D. J. and Habig, R. 209

Fontaine, T. D. III, and Hoadley, A. W. Transferable Drug Resistance Associated with Coliforms Isolated from Hospital and Domestic Sewage 238
Frajola, W. J. and Maurukas, J. A Stable Liquid Human Reference Serum 25
Freundlich, L. F. et al. *In Vitro* Antibiotic Sensitivity of *Pasteurella multocida* . . . 246

G

Gatewood, C. et al. Combining Cervical and Rectal Cultures for Gonorrhea on a Single Modified Thayer-Martin Plate 190
Granato, P. A. and Ellner, P. D. A New Medium for the Presumptive Identification of Gram-positive Uro-pathogens 258
Gregorio, S. B., Maasab, H. F. and Eveland, W. C. Interaction of *Listeria monocytogenes* and Influenza in an Animal Model 250
Gruft, H., Loder, A. and Osterhout, M. A Mycobacteriology Proficiency Testing Program, Using Simulated Sputum Specimens 184
Gruft, H. Three Simple Tests as an Adjunct to the Niacin Test for the Small Mycobacteriology Laboratory 179

H

Habig, R. et al. Field Evaluation of the Becton-Dickinson SST 209
Hart, L. J. et al. High-Purity Water Supplies for Biomedical Research Laboratories 11
Hasenclever, H. F. and Piggott, W. R. Colonization of Soil by *Histoplasma capsulatum:* II. Effect of Bat Guano Added to an Area of Reduced Colonization 203
Hassemer, D. J. et al. Field Evaluation of the Becton-Dickinson SST 209
Herman, L. G. Sources of the Slow-growing Pigmented Water Bacteria 5
High-Purity Water Supplies for Biomedical Research Laboratories. DeRoos, R., Vesley, D., Duchene, A. and Hart, L. J. 11
Ho, H. H. et al. Comparative Sensitivity of the BGM Cell Line for Isolation of Enteric Viruses 115
Hoadley, A. W. et al. Transferable Drug Resistance Associated with Coliforms Isolated from Hospital and Domestic Sewage 238

I

Identification of Gonococcal Cultures by Means of Their Cytoplasmic Antigens and an Anti-cytoplasm Antiserum. Kwapinski, G., Kwapinski, E. and Spurrier, M. . . 262
Infertility of Cattle Caused by Mycoplasmas. Tourtellotte, M. E. and Lein, D. H. . 152
Interaction of *Listeria monocytogenes* and Influenza in an Animal Model. Gregorio, S. B., Maasab, H. F. and Eveland, W. C. 250
Intersociety Committee (ISC) Methods of Air Sampling and Analysis Analytical Method for:
Antimony in Air and Urine (P & CAM 107) 90
Arsenic in Urine and Air (P & CAM 140) 95

Chloromethyl Methyl Ether (CMME) and Bis-chloromethyl Ether (BCME) in Air (P & CAM 220) 78
Chromic Acid Mist in Air (P & CAM 152) 82
Lead in Air (P & CAM 155) 86
Nitric Oxide in Air (P & CAM 218) 63
Parathion in Air (P & CAM 158) 73
Phosgene in Air (P & CAM 219) 71
Sulfur Dioxide in Air (P & CAM 163) 67
Classification of Industrial Hygiene Methods in Accordance with the NIOSH System 62
Preface 60
In Vitro Antibiotic Sensitivity of *Pasteurella multocida*. Rosenthal, S. L. and Freundlich, L. F. 246

K

Keane, M. B. et al. Combining Cervical and Rectal Cultures for Gonorrhea on a Single Modified Thayer-Martin Plate 190
Keeler, E. and Berwick, D. Effects of Pooled Samples 121
Kundsin, R. B. Mycoplasmas in Humans: Significance of *Ureaplasma urealyticum*. 144
Kwapinski, G., Kwapinski, E. and Spurrier, M. Identification of Gonococcal Cultures by Means of Their Cytoplasmic Antigens and an Anti-cytoplasm Antiserum . 262
Kwapinski, E. et al. Identification of Gonococcal Cultures by Means of Their Cytoplasmic Antigens and an Anti-cytoplasm Antiserum 262

L

Laboratory-Associated Infections: Summary and Analysis of 3921 Cases. Pike, R. M. 105
Laessig, R. H., Carey, R. N., Westgard, J. O., Hassemer, D. J. and Habig, R. Field Evaluation of the Becton-Dickinson SST 209
Lawton, H. L. et al. Seattle-King County Revisited 271
Lawton, H. L. and Brownfield, R. L. The Number of Personnel Needed to Perform Examinations 118
Lein, D. H. et al. Infertility of Cattle Caused by Mycoplasmas 152
Lennette, E. H. et al. Comparative Sensitivity of the BGM Cell Line for Isolation of Enteric Viruses 115
Loder, A. et al. A Mycobacteriology Proficiency Testing Program Using Simulated Sputum Specimens 184
Low, I. E. Mycoplasma in Tissue Culture: Overview of Detection Methods 129

M

Maasab, H. F. et al. Interaction of *Listeria monocytogenes* and Influenza in an Animal Model 250
Madoff, S. Mycoplasma and L-Forms: Occurrence in Bacterial Cultures 159

Marcus, S. et al. Evaluation of Tests for Infectious Mononucleosis through Proficiency Testing 34
Marshall, J. H. et al. An Air Sampling Technique for Hepatitis B Surface Antigen . . 233
Maurukas, J. et al. A Stable Liquid Human Reference Serum 25
Mycoplasma and L-Forms: Occurrence in Bacterial Cultures. Madoff, S. 159
Mycoplasma in Biological Systems: Induction of Interferon. Rinaldo, C. R. Jr. . . . 137
Mycoplasma in Tissue Culture: Overview of Detection Methods. Low, I. E. 129
Mycoplasmas in Humans: Significance of Ureaplasma unrealyticum. Kundsin, R. B. 144

O

Ortiz, J. S. and Decker, D. L. Demonstration of Agglutinating Antibodies Against *Vibrio parahaemolyticus* in the Yellow Tail Flounder (Limanda ferruginea) 197
Osterhout, M. et al. A Mycobacteriology Proficiency Testing Program Using Simulated Sputum Specimens 184

P

Performance Standards for Antimicrobial Disc Susceptibility Tests 59
Petersen, N. J., Bond, W. W., Marshall, J. H., Favero, M. S. and Raij, L. An Air Sampling Technique for Hepatitis B Surface Antigen 233
Piggott, W. R. et al. Colonization of Soil by *Histoplasma capsulatum:* II. Effect of Bat Guano Added to an Area of Reduced Colonization 203
Pike, R. M. Laboratory-Associated Infections: Summary and Analysis of 3921 Cases 105

R

Raij, L. et al. An Air Sampling Technique for Hepatitis B Surface Antigen 233
Resistance of *Neisseria gonorrhoeae* to Antibacterial Drugs in Ontario. Shtibel, R. . 49
Rinaldo, C. R. Jr. Mycoplasma in Biological Systems: Induction of Interferon . . . 137
Rosenthal, S. L. and Freundlich, L. F. *In Vitro* Antibiotic Sensitivity of *Pasteurella multocida* 246

S

Schafer, T. W., Everett, J., Silver, G. H. and Came, P. E. Biohazard Potential: Recovery of Infectious Virus from the Liquid Nitrogen of a Virus Repository 23
Schmidt, N. J., Ho, H. H. and Lennette, E. H. Comparative Sensitivity of the BGM Cell Line for Isolation of Enteric Viruses 115
Seattle-King County Revisited. Bonin, P. and Lawton, H. L. 271
Sheffner, A. L. et al. The Antimicrobial Activity of Embalming Chemicals and Topical Disinfectants on the Microbial Flora of Human Remains 267
Shigella flexneri 6 Biotypes: A Review. Brenner, D. J. 218
Shtibel, R. Resistance of *Neisseria gonorrhoeae* to Antibacterial Drugs in Ontario . 49

Silver, G. H. et al. Biohazard Potential: Recovery of Infectious Virus from the Liquid Nitrogen of a Virus Repository 23
Smeltzer, M. et al. The Effect of Delaying Incubation in a CO_2-Enriched Environment on Gonococci 45
Sources of the Slow-growing Pigmented Water Bacteria. Herman, L. G. 5
Spurrier, M. et al. Identification of Gonococcal Cultures by Means of Their Cytoplasmic Antigens and an Anti-cytoplasm Antiserum 262

T

Taylor, R. N., Ehrhard, H. and Marcus, S. Evaluation of Tests for Infectious Mononucleosis through Proficiency Testing 34
Tentative Program, Laboratory Section, APHA, October 17–21, 1976 223
The Antimicrobial Activity of Embalming Chemicals and Topical Disinfectants on the Microbial Flora of Human Remains. Burke, P. A. and Sheffner, A. L. 267
The Effect of Delaying Incubation in a CO_2-Enriched Environmen: on Gonococci. Chapel, T. A., Smeltzer, M. and Dassel, R. 45
The Number of Personnel Needed to Perform Examinations. Lawton, H. L. and Brownfield, R. L. 118
Three Simple Tests as an Adjunct to the Niacin Test for the Small Mycobacteriology Laboratory. Gruft, H. 179
Tourtellotte, M. E. and Lein, D. H. Infertility of Cattle Caused by Mycoplasmas . . 152
Transferable Drug Resistance Associated with Coliforms Isolated from Hospital and Domestic Sewage. Fontaine, T. D. III and Hoadley, A. W. 238

V

Vesley, D. et al. High-Purity Water Supplies for Biomedical Research Laboratories . 11

W

Weisburd, M. H. et al. A Comparison of Horse, Cow, and Sheep Blood in NYC Medium: Effect on Recovery of *N. gonorrhoeae* and Urogenital Mycoplasmas 194
West, M. E. et al. Automatic Gram-Staining with the Microstainer II 20
Westgard, J. O. et al. Field Evaluation of the Becton-Dickinson SST 209
